MEMORANDUM FOR: Deputy Director (Support)

SUBJECT: Proposed Amendment  Regulatory  
Issuances

25X1

We believe that the suggested amendment transmitted by your memorandum of 1 November 1963 will be a real contribution to the development and coordination of Agency regulations. Hopefully, issues will be identified early in the game and resolved by the offices most directly concerned. Because the process is so time consuming and is particularly a heavy burden on this office, I would hope there could be a hard look early in the process as to whether a regulation is really needed or whether some simpler manner of handling the problem involved would suffice.
